This bird list was built with the help of many dedicated birders and ornithologists who have spent hours in the field finding birds at the Los Amigos Biological Station and the Los Amigos Conservation Concession. In particular, this list builds on the bird lists compiled by Joseph A. Tobias, Daniel J. Lebbin, and Uribe Valdez during their fieldwork in the early 2000's, and Sean Williams during his fieldwork in 2013-2016. William Sweet, Peter Hosner, Rich Hoyer, Michael Anderson, Glenn Seeholzer, and many others also heavily contributed to our knowledge of the avifauna of Los Amigos.
